

# Manual

## Model M2 from the Anjoma.eu site.

This is a model of a sanitary building on Ulbjerg camping site in Denmark.

It has the following parts to use.

In the list is given the part number and the amount for printing this part.

Part no.	description	times to print
1	Wall-east	1 x
2	Wall-West	1 x
3	Window-small	16 x
4	Window-double	2 x
5	Wall-north	1 x
6	Wall-south	1 x
7	Wall-small	1 x
8	Door	2 x
9	Door with window	1 x
10	Concrete footprint	1 x
11	Roof on entrance	1 x
12	Rafter	14 x
13	Gutter	2 x
14	Roof-west	1 x
15	Roof-east	1 x
16	Wooden timber	3 x
17	Roof panel	2 x
18	Roof end-list	2 x

How to make this model:

Print all the parts as many as shown above.

Please pre position the parts before assembling for a perfect fit.

Maybe you have to sand it for better fitting

I 's better to paint it before you assembling it, the original building has RAL 9002 painted wood with RAL 3011 painted windows and RAL 3011 roof end list parts.

The roof is anthracite with metal drain gutters.

The footprint is concrete.
